Pedro Chaves

Technical Lead · Full-Stack (Angular · Java · PHP)

CI/CD, Cloud (GCP) & Software Quality

Technical Lead at EDP specializing in software engineering, technical leadership and large-scale, business-critical applications. I work daily across Angular, Java, PHP, CI/CD, GCP, software quality, security and technical governance — bridging development teams, architecture, operations and business stakeholders. My focus is elevating engineering standards, reducing technical debt and ensuring high-performance, secure applications across the full lifecycle.

EXPERIENCE

Technical Lead · EDP

Sep 2021 – Present · Lisbon

Technical leadership of critical applications — performance, security, reliability and compliance with engineering and corporate standards.

- Lead technical strategy, architecture decisions and engineering best practices.
- Implement automated CI/CD pipelines and drive technical-debt reduction with Product Owners.
- Ensure Security, Architecture & Business Continuity compliance; manage monitoring, observability and SLAs.

Stack: Angular 15+, TypeScript, Java 17, PHP 8.2, MySQL, PostgreSQL, SonarQube, Kiuwan, Robot Framework, GCP, GitHub

Angular Developer · Natixis in Portugal

Jul 2020 – Aug 2021 · Porto

- Built and maintained reusable Angular components based on the internal Design System.
- Guided development teams integrating the component library and contributed to frontend best practices.

Stack: Angular 10+, TypeScript, SCSS, HTML5, Spectator, Jasmine, SonarQube, Bitbucket

Angular Developer · PMAçores

Jun 2017 – Jul 2020

- Developed a new ERP system replacing a legacy application and modernized existing web apps.
- Introduced Angular componentization and frontend engineering practices.

Stack: Angular 7+, TypeScript, HTML5, CSS3, RxJS, jQuery, SQL, Protractor, Jasmine, Bitbucket

Laravel Developer · IT Manager · NOS Açores

Apr 2014 – May 2017

- Built internal platforms for documentation, news and reporting; provided technical support.
- Managed internal IT systems, security policies and access permissions.

Stack: Laravel 5, PHP, HTML5, CSS3, SQL, Bitbucket

EARLIER EXPERIENCE

Web Designer · Computer Science Instructor — Centro Sócio-Cultural de São Pedro

2009–2010

Web Designer — Electraçor Engenharia S.A.

2009
